

DEPARTMENTAL EVENTS

A look back at a few of the events and moments that marked the past year at our department...

While the classroom excels at producing the technical prowess demanded by the engineering profession, it falls short in quenching the students' thirst for industry exposure. Students are always looking for an interactive learning experience that moves them out of the textbook and in to the real world. Speaking events encourage this by bringing students face-to-face with practicing actuaries where they can learn first-hand the expectations firms have of their employees.

2017 has been an eventful year. The department has been committed to emerging practices and knowledge production. This year we convened numerous seminars, workshop and industrial visit with the aim of bridging the gap between classroom and industry and keep you students in line with the trends

Inauguration of Computer Society of India Chapter

Computer Society of India is the first and largest body of computer professionals in India. Computer Society of India regularly organizes workshops, seminars, conventions, and technical talks for the benefit of professionals and users of IT apart from conducting continuing education and professional development programmes for a focused audience of budding professionals, researchers and students.

The department through its tie up with CSI aims to bridge the gap between academics and industry. The CSI chapter was inaugurated on 26.06.2017 and a five day training course on Android was conducted in association with CSI from 26.06.2017 to 30.06.2017.

Glimpses from the Inaugural session of CSI

Departmental Societies/Student Chapters

Lead, Serve and Inspire @ APSIT

Involvement in student associations and chapters causes student leadership development. It creates a sense of responsibility, independence, satisfaction and more positive attitude to life.

Computer Engineering Students Association

CMESA is an integral part of the educational mission of the college. As the center of the college community life, CMESA complements the academic experience through an extensive variety of cultural, educational, social, and recreational programs. These programs provide the opportunity to balance course work and free time as cooperative factors in education.

President: Mr. Rahul Bhiwande

The President shall have the general responsibility for coordinating the activities of CMESA and for directing and overseeing the publicizing of the affairs of the Student Body. He shall preside at all Student Council meetings.

Vice President: Mr. Aditya Joshi

The Vice-President shall share the duties and responsibilities of the President.

Secretary: Miss. Urvi Anyamane

The Secretary shall be responsible for recording the minutes and acting as official timekeeper of all CMESA meetings. The Secretary shall maintain the permanent records of the Student Council and he/she will assist the President and Vice-President. She shall preside at Student Council meetings in the absence of the President and Vice-President.

Treasurer: Miss. Apurva Waingankar

The Treasurer shall be the custodian of the Student Association's funds. She shall keep all financial records, disburse funds, and present monthly and annual accounts of financial status of the Student Association.

TP Cell coordinators

Miss. Daisy Maniar

Two members are elected as TP cell coordinators. They would be in charge of coordinating with the Training and Placements cell and managing activities in which the students from the department are involved.

Cross Platform Mobile Application Development

A three day training programme on Cross platform mobile application development was conducted in January 2018 in three batches to prepare the students for the Microsoft certification course. The sessions for the first and second batches were organized on 2nd, 4th and 5th of January 2018 at two venues. Mr. Krunal Panchel and Mr. Suresh Pal from AITS Infotech Learning, Pune were the resource persons for the first and second batch respectively. The session for the third batch of students were conducted on 25th, 26th and 27th January. This session was taken by Mr. Krunal Panchel.

Mr. Suresh Pal conducting the session

Java Programming

A one day brush up seminar on Java was organized in October 2017. Mr. Ashish Khot from the global learning solution company Aptech was the resource person.

A two day seminar on Java programming was conducted in January 2017 for SE and TE students. Concepts like Core Java, Swing, Servlets, Javascript etc were covered in the seminar. Mr. Amol Kalugude, Assistant professor at the department was the resource person.

Glimpse of the Java seminar

Image Processing

A seminar was conducted for BE students on image processing in August 2017. The scope of image processing and various technologies were discussed in the seminar. Dr. Amol Madane, an associate of Tata Consultancy Services, Pune who is also an adjunct professor with the institution was the resource person.

Microsoft Certification

A one hour seminar on Microsoft certification was conducted in September 2017 for the students of SE and TE with the purpose of making them aware of the Microsoft certification and exam procedures.

KIM Talks

The event Kim talks was organized on 22.03.2018. It was based on using knowledge for inspiring and motivating students to excel in life. It gave a platform for students to rise above their fears and speak their heart out. The talks were followed by a question and answer session wherein our respected HOD Prof. Sachin Malave and Prof. Amol Kalugude were bombarded with some really interesting questions. The event was organized by a team comprising Swapnil Kshirsagar, Mohit Ghare, Shivam Kolekar, Sayali Patil, Daisy Maniar and Manali Kajari from TE. The student speakers in the event were Gauri Deshpande and Pradipt Kalamkar from SE, Ganesh Kamath, Aditya Shetty, Tejas Chauhan, Advait Sathe, Shreya Salgia from TE and Sejal Chorbe from BE. The participants showered their vibrant knowledge on the audience to the peak of satisfaction and applause.

Glimpses of the event

Cloud Computing Workshop

A workshop on cloud computing was conducted for BE students on 01.04.2018. The workshop was coordinated by Prof. Shruti Agrawal and Mr. Rohan Shah, Cloud Architect in Capgemini was the resource person. The workshop included hands on session and covered the latest technologies required to implement cloud infrastructure.
